ANNUAL REPORT  
OF THE  
BOARD OF ADMINISTRATORS OF THE CHARITY HOSPITAL,  
*For the Year Ending December 31st, 1900.*

CHARITY HOSPITAL,  
STATE OF LOUISIANA,  
NEW ORLEANS, February 4, 1901.

To His Excellency, W. W. Heard, Governor of the State of Louisiana, and President  
of the Charity Hospital Board of Administrators:

*Your Excellency*—The annual report of the Charity Hospital Board, appended to which are the reports of its Committees, Secretary and House Officers, is respectfully submitted through its chairman.

During the year which has closed the century there were treated indoor 8301 patients of different nationalities and races; of which 7728 were admitted during the year and 6549 discharged, with a mortality of 9 per cent. In the outdoor clinics, 19,058 were treated, and 74,955 consultations given. There were also 1464 ambulance calls.

The current expenses for the year, amounting to \$117,002.11, were \$2545 less than the year preceding, leaving a cash balance of \$1455.54. The revenues, in totality, amounting to \$119,556.30, were, however, less by \$4906.69 than the year previous, through shrinkage in auctioneers' sales, licenses and gate fees. It will thus be seen that, notwithstanding the \$5000 additional appropriated by the State, the revenues of the Hospital have been but little increased, and we may be forced again to appeal to our legislative bodies for assistance, as our expenses for 1901 will be increased about \$2400 for insurance premiums falling due. Of the special fund there remains \$37,787.28.

The improvements during the year have consisted mainly in general repairs, calcimining and repainting. The reports appended furnish in detail statements of work accomplished, and disbursements in the administration of the Hospital. The buildings, grounds and accessories are in good and satisfactory condition. The Training School for Nurses, in its efficiency, illustrates more than ever the urgent need for extending its sphere of usefulness to every department of the service. With this object in view, plans have been drawn and perfected, to be submitted, for the erection of a building in which the requisite number of nurses can be housed, as the present dormitory is inadequate for the purpose. This is a chief and pressing need of the Hospital for the correction or a very defective service of which the Board is fully cognizant and is eager to amend.

The dawn of a new century, in relation to the history of this institution, suggests a pardonable retrospection regarding its evolution and growth to its present high standard of usefulness. An object of pride to our State, and admiration of visitors from every known quarter, for the facilities it furnishes for the care of its inmates, and for its broad and cosmopolitan charity.

A gloom was thrown over the events of the year by the decease of Sister Cunera, who served the institution faithfully for forty-eight years; and of James Gibbons, of the corps of Resident Students, who was shot New Year's eve. He was the son of our esteemed colleague, and was a young man of character and promise.

To Sister Agnes and the co-helpers of her order who so wisely direct the economic administration of the Hospital, we are profoundly grateful, as well as for the order and discipline maintained.

Our thanks are also due to our trusty and capable House Surgeon, his efficient staff, and all the officers, Resident Students, Ambulance Corps and employees of the institution.

Our appreciation of the value of trained nurses is best shown in our intention to extend the corps, which, directed by their gentle and competent superintendent, Miss Huyghe, have rendered faithful service.

To the Visiting Staff, and our attorneys, Messrs. Farrar, Jonas & Kruttschnitt, who cheerfully give gratuitous service, and to the kind friends of the institution who have made donations, we extend our grateful thanks.

In closing this brief summary of the year's work, I desire to express to my colleagues my sincere appreciation and acknowledgment of their aid at Board and Committee meetings, and to thank them for their uniform courtesy and friendliness in official and private relations.

Very respectfully,

E. S. LEWIS, M. D.,

VICE PRESIDENT.

---

## Annual Report of the House Committee.

---

CHARITY HOSPITAL,  
STATE OF LOUISIANA,  
NEW ORLEANS, February 4, 1901. } }

To the Vice President and Board of Administrators:

*Gentlemen*—Your House Committee respectfully report that the work on the Hospital for the past year consisted in the main of ordinary reparations, such as repainting, calcimining, etc.

The improvements were of light character and not worthy of special mention in this report. The general condition of the property is good.

The Ambulance property, horses, ambulances, etc., are well cared for and doing excellent service.

Your Committee are specially indebted to Chief Engineer John Ponder for his material aid in the work of the year. He has been untiring in his labors.

Respectfully submitted,

JOHN T. GIBBONS,  
W. G. VINCENT,  
A. R. BROUSSEAU.

## Annual Report of the Finance Committee.

---

**CHARITY HOSPITAL,**  
**STATE OF LOUISIANA,**  
**NEW ORLEANS, February 4, 1901.**

To the Vice-President and Board of Administrators:

*Gentlemen*—Your Finance Committee respectfully report that, with the increase in the appropriation made to this institution by the State, the income for the year 1900 has been sufficient to meet the expenditures for the same period; and we enter the new year with a cash balance of \$1455.54, notwithstanding the falling off in the returns from

Auctioneers' sales.....	\$3,835 49
Licenses.. .....	320 00
Gate Fees .....	751 20
<hr/>	
	\$4,906 69

To partially offset these figures, the total expenses for the year 1900 were \$2545.71 less than those of the preceding year.

The triennial payment for renewal of insurance on the Hospital property will fall due this year. This payment, three years ago, amounted to about \$2400, and the payment this year will add considerably to our disbursements, and the additional State appropriation will be timely.

The detailed statement of receipts and disbursements is shown by the accompanying report of the Secretary and Treasurer. You will observe that the Special Fund, which is created by donations to the Hospital and is used by the Administrators for the erection of additional needed buildings, has not increased

any of late, and now amounts to only \$37,787.28, a sum barely sufficient to construct and equip the contemplated building for the use of trained nurses.

Respectfully submitted,

R. E. CRAIG,

*Chairman Finance Committee.*

HUNTER C. LEAKE,

GEO. SEEMAN.

### ACKNOWLEDGED BY SISTER AGNES, 1900.

- Mr. Lefebreve, one barrel sugar.
- Mr. R. E. Craig, box of oranges.
- Mess. A. Lehmann, case of fine samples, flannel and damask.
- Mess. Miller Rubber Co., Akron, Ohio, assortment of rubber goods.
- Mess. I. L. Lyons & Co., old crutches.
- Dr. J. L. Burthe, three boxes assorted Easter eggs and candy.
- Mess. Hansell Bros., sample bed pan, new pattern.
- Misses W. F. and Esther Lyons, cut flowers, Easter.
- Mr. J. Dizell, Kingston, Ala., trunk of second-hand clothing.
- Mr. W. T. Maginnis, sundry reading matter.
- Mr. N. I. Shwartz, Touro Infirmary, six beautiful red fish for fountain.
- Katharmon Chemical Co., eighteen sample bottles Hagirs, C. L. oil.
- Children of McDonogh No. 11, three large baskets Easter eggs and rabbits.
- Miss Cathleen Becker, Brookhaven, Miss., books and pictures for children.
- Mrs. John Maloney, twelve sheets and twelve towels.
- Mrs. N. F. Soran, Biloxi, Miss., fresh cut flowers.
- Mrs. A. E. Hardie, city, fresh cut flowers.
- Mrs. Alice Hames, eight dozen fresh eggs.
- Hotel Denechaud, sundry periodicals.
- Mr. I. S. Richards, 115 Chartres street, two dozen bottles infant food.
- Mrs. W. Ganter, children's clothes (old).
- Mrs. J. T. Hardie, 1812 Palmer avenue, city, cut flowers.

Mrs. R. Foster, 1219 St. Peter st., lot of books and journals.

Mrs. Dubos, 1015 Burgundy st., case of Mellins' food and infants' clothing.

Little Benricke Reinecke, \$1 for party for children.

Miss Hagan, 1611 St. Charles avenue, old clothes.

Dr. and Mrs. G. Aitkens, St. Charles avenue, trolley ride to children around belt line, three hours.

Mrs. Bradenburg, 2438 Esplandade avenue, box fine books and two children's high chairs.

Mr. E. H. Merrick, Fruit Dispatch Co., wagon load bananas, three times.

Mr. B. Davis, 406 Royal street, story and picture books.

Miss Maud Font, 1539 Camp street, twelve beautiful scrap books.

Mr. R. Mourin, Belle Alliance, barrel molasses for children.

Mr. J. S. Richards, 115 Chartres street, one case infant food.

Mess. A. Lehman & Co., case sample pieces for quilts.

Mr. Cordona, sack pecans and coop spring chickens.

Louisiana Club, large box magazines, etc.

Doctor Lehmann, large box magazines, etc.

Misses Buck, Valence and Prytania, city, assortment of monthly magazines.

Mess. A. Beyer & Sons, six thermometers.

Mr. Robert E. Craig, three boxes choice apples.

Miss Kelly and pupils of McDonogh No. 1, fruit and cakes for children on Thanksgiving Day.

Mrs. Foret, gold fishes for pond.

Miss D. Mellin, tally-ho ride for children to the Dog and Pony Show.

Dr. J. E. Doussan, two cases Mellin's Food.

Mr. Thos. Lynch, tally-ho ride monthly for children.

Master David Manson, Christmas Tree for children.

Mrs. D. A. Milliken, decorations, toys and candy for Christmas Tree.

Dr. and Mrs. M. Courret, box candy and picture-book.

Mr. R. E. Craig, two boxes oranges.

Mr. D. J. Bennett, two boxes oranges.

Mrs. Maurice Stern, hose, gloves and infants' shoes.

Mr. M. W. Wood, three barrels sweet potatoes.

Mr. N. Boudreaux, Houma, sack of pecans and quinces.

Mr. A. Cordona, bucket of "la cuite."

The Willing Workers, Grand Lake, La., beautiful scrap books for children.

Miss Kelley, and pupils of McDonogh No. 1, home-made toys and candy for Christmas Tree.

Master Isador Huye, two dozen toy tables and chairs.

Dr. N. F. Thiberge, thirty pounds candy.

Dr. and Mrs. O. L. Pothier, thirty pounds candy.

Mr. and Mrs. J. L. Burthe, bolt gingham for children.

Mrs. H. J. Smith, bed pads, slippers and dolls for children.

Mrs. Lureman, crochet sacques and slippers for children.

Mrs. Mulvihill, Gravier street, two barrels potatoes.

Mr. O. Cahill, two turkeys.

Mr. Kottwitz, barrel potatoes and onions.

Mr. J. Dufon, side of veal and large cakes.

Mr. H. Ruch, four young pigs.

Mr. Curtis, two young pigs.

Mr. L. Newman, box cakes.

Mr. Chas. Farwell, six boxes candy.

Dr. H. A. Veazie, thirty pounds candy.

Donation "Unknown," \$10.

Mr. Harrison, \$5.

Mr. B. J. Blair, Colorado, \$8.

Mr. D. O'Sullivan (Gilpin), \$5.

Dr. Gayle Aikens, \$5.

Mr. J. Reynolds, \$7.

Mr. F. Gollizota, \$26.

Mr. B. Lynes, \$5.

Mr. L. Cherchick, \$5.

Mrs. Geo. Seeman, \$10.

Mr. P. J. Aymond, Bunkie, La., \$2.

## Annual Report of the House Surgeon.

CHARITY HOSPITAL,  
STATE OF LOUISIANA,  
NEW ORLEANS, February 4, 1901.

To the Board of Administrators:

*Gentlemen*—A detail of the several departments of service in medical and adjunctive purpose that embody the annual record of work, I have the honor to herewith submit.

The data in its statistical bearing is encouraging to the trend of improvement that has been so effective in the facility of benefits and without diverting the economy of management.

In the limit of beneficiaries, the freedom of privilege and the admission requirement of ill health, this charity and service have been unqualified and unrestrained.

Fully thirty thousand people partook of the provisions that have made proverbial the wide and unsectarian blessing of this humane work.

The diminution in the admission number, of which 7728 gives the total for the year, is in pleasing evidence of the non-prevalence of any epidemic disease. The white patients were admitted to the number of 4575 and the colored to 3153.

The total of bed patients, which includes the number remaining on the first day of the year, was 8301. The patients discharged in the year's course, either fully recovered or in a stage of illness permissible of their departure, numbered 6549.

The average in daily number of patients detained in the institution during the year was 552 $\frac{7}{12}$ .

The annual hospital death rate has been at a stand-still for the past five years; the true death rate having been reduced from 11 to 9 per cent., the gross rate remaining at 13.

During the year, 1108 deaths occurred; 344 of this number were admitted in a dying state and expired within thirty-six hours of admission. The Coroner held 152 inquests upon patients that died after various periods of hospital confinement.

A most gratifying result is presented in the report of our Maternity Service, wherein 252 births were recorded. Of the 248 mothers, 112 were white and among whom not a single death occurred. The 136 colored include six that were admitted moribund. An excellent showing in that of all the cases following the regular course of admission not a death occurred, and with the moribund number included the rate of mortality was but 2 per cent.

The surgical division of hospital work is represented in the record of the A. B. Miles' Amphitheatre wherein 1234 major surgical opérations were performed, and attention given to 3618 emergency or accident cases that sought relief throughout the hours of both day and night.

The emergency requirements were further efficiently fulfilled by our excellent Corps of Resident Students and the equipment and orderly training of our Ambulance Service. The calls answered by the corps numbered 1464, and the average of time consumed in each call was  $38\frac{3}{16}$  minutes.

In the Department of Out-Door Clinic Service, covering the field of medicine in its many departments of special application, the aggregate in attendance was 19,058 and to whom 74,955 consultations added to the requirement of their treatment.

A special room has been set apart in the male division of this service for the medical archives, whereby the filing and ready reference to case histories is made convenient and at the pleasure of our Hospital Staff.

The Registrar, in the year's course, reported the filing of 1785 histories, representing 515 Surgical, 200 Gynecological and 1070 Medical. Each volume covering the index of subjects as arranged in the classification of our annual report, is bound in

the order of completion, making convenient their ready purpose of reference and giving to its value of record a longer life.

Engrossing in its interdependence of influence in the direction of medication and surgical procedure has been the work of the Pathological Department, and in addition to which tax upon its service have been the scientific research and experiment in bacteriological study upon antiseptics of pertinent value to hospital service in minimizing expense, and the independent results and questioning study in the causation of infectious diseases. Dr. O. L. Pothier, and his assistant, Dr. M. Couret, have been untiring in their devotion to duty and their spirit of work is worthy of emulation. The department report is hereto appended.

Our Nursing School, upon which the reports of management have been addressed your medical committee and in which favorable representation was shown an increase of accommodation secured by the removal of the dining rooms to the basement of the Richard Milliken Memorial, is in evidence of the pressing need of a larger corps of nurses and a furtherance of the argument towards your earliest consideration of special quarters with a capacity to meet the demands of service. Independent of its charity in fulfilling a modern and humane service to the sick poor, the educational influence upon the minds of its pupils and through them upon the people in general, that devotion to a God-like purpose, the widening influence of Sisterhood, and a practical knowledge of our armament in conflict with disease implies, substantiates the appeal to the philanthropic among us for a support of the cause and monetary aid in upbuilding.

The Richard Milliken Memorial Annex has served well its mission of charity, strengthening the cause through an educational influence upon its beneficiaries and in the practical moral of its donor inspires the significance of the precept: "A reward of one duty is the power to fulfill another."

Throughout the year's course our institution has been subjected to renovation and such rearrangement as was befitting the better service.

The Department of Chemistry and Pharmacy, under the direction of Mr. W. T. Taylor, has been thoroughly rearranged upon a more practical and accurate basis, entailing a greater security in service and a marked diminution in the annual expenditure.

In addition to the necessary paraphernalia, a milk-testing apparatus has been added to aid in the daily examination of milk furnished the hospital, and upon which a monthly report is rendered.

A Cumolizer has been installed in the A. B. Miles' Amphitheatre for the preparation of animal ligature and suture material. The replenishing of this department's necessities brings the matter of its new provisions within the pale of the smaller manifold improvements.

The Colored Maternity Service had been more fully equipped with requirements of asepsis.

Two of the female medical wards have been memorialized in the name of Mrs. Julie Ziegler. Newly equipped in furnishings and auxiliaries, they are a handsome tribute to the memory of the departed, and a model in its gift of love.

Departments of every division have been provided with such improvements as progress made evident and of which attest is given by the many satisfactory reports and the staff's appreciation of the service.

Hospital demands are but the necessitous of conscience in the care of human life. We will have realized this comfort with the construction and equipment of the Nurses' home, Administration and Kitchen buildings, as recommended in our monthly report, and which, when erected, will meet the needs of a very distant future.

The colored patients can be then arranged in separate buildings, and our capacity will equal all possible demands.

The year records a grievous loss in the demise of Sister Cunera, who died on the 11th of February, after a service of forty-eight years of unremitting and unselfish devotion to the aim of this work.

With the close of the year, death in unseemly armor, through the instrument of an assassin's bullet, claimed our Resident Student, Mr. James Gibbons. He was endeared by association, probity of character, exemplary conduct and an excellent Classstanding, and his death was a poignant grief to every member of the Hospital Corps.

For every department of this hospital organization it is my pleasure to report upon a most satisfactory service.

In every department and work that our service entails, the unfaltering and kindly spirit of the Sisters of Charity has rendered efficient assistance, and the exemplary appointment of our institution is to their credit and of force in evoking our gratitude.

We owe thanks to the Visiting Staff for prompt attendance and the efficient and material assistance rendered.

The splendid service of my assistants, Dr. E. D. Fenner and Dr. J. M. Batchelor, gives me pleasure in commending.

Words of praise are merited by the competent service of our Chemist and Druggist, Mr. W. T. Taylor, the Clerk, Mr. James Leake, and our Engineer, Mr. J. Ponder.

With a complement of auxiliaries in the proper care of the sick a betterment by amplification and facility will mark a statistical result, and insure the greatest good to the greatest number.

Respectfully submitted,

J. D. BLOOM,

HOUSE SURGEON.

## Pathological Department.

---

**CHARITY HOSPITAL,  
STATE OF LOUISIANA,  
NEW ORLEANS, February 4, 1901.**

To the Board of Administrators of the Charity Hospital:

Gentlemen—I beg to submit the following annual report of work done in the Pathological Department during the year 1900:	
Specimens of Urine examined.....	5,535
Specimens of Blood examined.....	2,184
Specimens of Sputa examined.....	851
Specimens of Pus examined.....	55
Specimens of Cultures examined.....	96
Specimens of Feces examined.....	9
Specimens of Tumors examined.....	119
Specimens of Calculus examined.....	1
Specimens of Fluids examined.....	13
Specimens of Stomach Contents examined.....	10
Specimens of Skin Scrapings examined.....	1
Specimens of Ulcer examined.....	1
Specimens of Tape Worm examined.....	1
Autopsies held.....	223
Photographs taken, including skiographs.....	181
Total.....	9,280

During the past year the department has made the examinations for diphtheria for the institution. To facilitate this work special media and swabs were placed in the Amphitheatre, so that they would be within reach at all times of the day and night.

I would call special attention to the number of cultures examined this year, which shows that the department is rendering better service in this special branch than heretofore.

Investigations were made, this last year, into the cause of varicella. An organism was isolated which when inoculated to rabbits and pigs produced elevation of temperature, and an eruption resembling very much varicella as found in the human subject.

The study of Claes diplococcus of scarlatina was also made, but our investigation of this organism is not completed as yet.

Investigations on the same line as that of varicella were made for Variola during our epidemic last winter. Cultures were obtained from a number of cases from the Smallpox Hospital, and though we obtained a number of pus organisms we were unable to isolate any that would cause any specific disease in the lower animal.

During the last three months of the year we investigated the antiseptic value of three antiseptics used in the Hospital: Creolin, Lysol and Creosap. The latter being a preparation of the Hospital. This work was especially made to establish the antiseptic value of each preparation, and if possible diminish the cost of these preparations by using one made at the Hospital. The investigation proved that our antiseptic solution is as valuable and effective an antiseptic agent as the more expensive one heretofore used.

In concluding, I wish to commend the valuable and untiring assistance given me by Dr. M. Couret, Assistant Pathologist. I wish to thank the different Resident Students detailed to the department during the year for their assistance in the work. To Dr. J. D. Bloom, I am indebted for his co-operation and the means put at our disposal by him to facilitate the work of the department.

Respectfully,

O. L. POTHIER, M. D.,  
PATHOLOGIST.

# Annual Report of Dental Clinic.

CHARITY HOSPITAL,  
STATE OF LOUISIANA,

## Report of Directress.

CHARITY HOSPITAL,  
STATE OF LOUISIANA,  
NEW ORLEANS, December 12, 1900.

Dr. E. S. Lewis and Dr. F. Loeber, Members of Medical Committee of the Charity Hospital, Board of Administrators:

*Gentlemen*—The honor of submitting the sixth annual report upon the results and progress of the Training School, couples my pleasure with appreciation of the satisfactory encouragement that your committee and co-workers of your worthy board have so kindly given.

The phases of character and pertinent adaptitude to the requirements of the nurses' calling are the ever-puzzling source of embarrassment, and that gives to the statistical showing of this and like institutions in every other locality an impression that in figures are anomalous but in true meaning speak for the lack of essentials in the applicants.

A school's standard and estimate of the requirements of its applicants are shaped by experience, modelled upon merit, public sentiment and the desire for a greater glory of Alma Mater.

A duty that carries the weight of responsibility for a public necessity and which duty in its representatives of purpose reflect defect or favor, is a discerning one and exacting master.

Our graduates have taken rank that is a credit to our school. They spread the merit of this organized charity in sick relief, with its lessons and influence, over the breadth of our country. They occupy positions of distinction in schools and institutions in Louisiana, Texas, Mississippi, Tennessee, Arkansas, Virginia, Ohio and Cuba, and are valued and praised at their respective responsible posts.

The Training School continues as an active adjunct to this institution. The outline of studies as originally scheduled has been adhered to. Miss L. Woodin has continued her practical lessons in massage, and the invalid cooking classes are maintained as a part of the curriculum.

The session closing with these exercises records the largest list of applicants since its organization, 379 in number.

Our school's capacity is 28. Twenty-two applicants were accepted, of which 14 were released, 9 as unsuited to the work and 5 by resignation.

Of the pupils that remain, after the departure of the present graduates, 11 will form the senior class and 15 the junior.

With the consent of your committee we have transferred the lecture and dining rooms to the basement of the Richard Milliken Memorial, using the space thus acquired in the nurses' quarters as dormitories for twelve additional beds, giving an increase in the capacity of the school to forty.

Submitted to the Faculty of Lecturers for decision as to their fitness for graduation, were eight pupil nurses and two Sisters of Charity.

Their school record has been excellent, and my affection and good wishes accompany them. The personnel of our school continues the same. For the unceasing interest in her work, the excellent discipline and progress of our classes, I am deeply grateful to our excellent Superintendent, Miss Adelaide F. Huyghe.

Our Faculty of Lecturers have, with their usual promptness and interest in the school's progress, aided materially the work, and deserve our gratitude.

The action of your Board in accepting the recommendation contained in my last annual report for the erection of a special building to secure the full complement of nurses, has given me great pleasure.

I sincerely pray that your plans and intentions will elicit encouragement and response from among our many charitably

disposed friends. Each year renews my pleasure of association in the great and God-like work of this institution that models a humane charity.

My pleasure is further enhanced by the privilege of giving expression to my high value of the assistance rendered, both in counsel and action, of our most worthy House Surgeon, Dr. J. D. Bloom, and his able assistants, Drs. E. D. Fenner and J. M. Batchelor.

The close of this session carries the comforting assurance of substantial improvement that will secure the ultimate needs of the school, with its benefits, and give credit to the administration of our Governor.

Respectfully submitted,

SISTER AGNES,

DIRECTRESS.

## Report of the Chairman of the Faculty.

CHARITY HOSPITAL,  
STATE OF LOUISIANA, }  
NEW ORLEANS, December 12, 1900.

Dr. E. S. Lewis and Dr. F. Loeber, Members of Medical Committee of the Charity Hospital, Board of Administrators:

Gentlemen—The duty of honor assigned the Faculty of Lecturers of your Training School has ever proven an unfeigned pleasure, and the compliment to their labors by the enhancement of school facilities in capacity and model of purpose, contemplated by your Board, add an especial pleasure to the acknowledgment in this, their sixth annual report.

Medical teaching conveys lessons of the original model of practical philanthropy. Precision in the care of the sick is a matter of vital concern to human kind, and is based upon the summing of medical detail.

Intelligence and womanly sympathy are not lacking in Southern womanhood; opportunity and exemplary conditions are unrivaled by any other institution, and the furtherance of a broad educational spirit is an undisputed benefit to the sick poor.

The vigor with which our excellent Directress has advocated this advancement is appreciated by the members of this Faculty.

The School's Course, consisting of two annual sessions of five months each, and involving a curriculum of ten series of lectures, with occasional lectures by distinguished members of the profession, has been maintained with great satisfaction.

The resignation of Dr. C. L. Horton is tendered with sincere regret.

Dr. E. H. Walet has rendered excellent service during the past session, and his name is respectfully submitted for your approval as a member of the Faculty of Lecturers.

An excellent record and class standing, the result of many written and oral examinations, the last of which to entitle this recommendation, gives pleasure on the part of the Faculty in presenting the following names as deserving the Medal and Diploma of this School:

MISS SARA V. BECKER.....	Alabama.
MISS IDA L. BOND.....	Mississippi.
MISS FLORENCE M. BUCKLEY.....	Alabama.
MISS SIDNEY BUFORD.....	Tennessee.
MISS JESSIE ROSS COTTER.....	Georgia.
MISS MARTHA M. GULLETTE.....	Alabama.
MISS LULU RODELSPERGER.....	South Carolina.
MISS MAUD LILLIAN WRIGHT.....	Virginia.
SISTER LORETTO.....	Charity Hospital.
SISTER M'DESALES.....	Charity Hospital.

Respectfully submitted,

J. D. BLOOM,

CHAIRMAN OF FACULTY.

Curettage .....		1		1	Bone.
Skin Graft.....	26			26	Chronic Ulcer.

## LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS—Continued.

Operation.	Result.				Diagnosis. Remarks.
	Cured.	Improved.	Stationary.	Died.	
Miscellaneous—Continued.					
Circumcisions.....	106	.....	.....	.....	106
Removed Needle from Foot.....	1	.....	.....	.....	1 Planter Surface.
Forearm.....	1	.....	.....	.....	1 Cavernous Naevus.
Finger Nail Removed.....	1	1	.....	.....	2
Skin Graft.....	1	.....	.....	.....	1 Gunshot Wound of Hand.
Hand.....	1	.....	.....	.....	1 Horse Bite.
Splinter Removed from Foot.....	1	.....	.....	.....	1
Laceration left Femoral Vein.....	1	.....	.....	.....	1
Enucleation of Eye.....	4	.....	.....	.....	4
Leg.....	1	.....	.....	.....	1 Compound Multiple Fracture.
Plastic Operation.....	1	.....	.....	.....	1 Auricular Opening.
Ankylosis of Inferior Maxilla.....	1	.....	.....	.....	1
Rectum.....	2	.....	.....	.....	2 Prolapse.
Rectum.....	1	.....	.....	.....	1 Stricture.
Plastic Operation.....	6	.....	.....	.....	6 Hair-lip.
Anus.....	1	1	.....	.....	2 Stricture.
Hand.....	1	.....	.....	.....	1 Infected Wound.
Plastic Operation. Nose.....	1	2	.....	.....	3
Coxa Varo.....	1	.....	.....	.....	1 Traumatic.
Cyst of Head. Sebaceous.....	4	.....	.....	.....	4
Wiring Tibia.....	1	.....	.....	.....	1 Compound Fracture.
Ankylosis.....	1	.....	.....	.....	1 Elbow.

## Miscellaneous—Continued.

Foot. Bullet Removed.....	1				1	
Paraphimosis.....	2				2	
Removed. Salivary cysts.....		1			1	
Hand.....	1				1	Gangrene.
Leg .....	1				1	Compound Fracture.
Foot.....	1				1	Dislocation Metatars.
Cellulitis .....	1	1			2	Phlegmor.
Papilloma .....	1				1	
Tracheotomy.....		1			1	
Cataracts Removed.....	2				2	Eye.
Laminectomy.....			1		1	Gunshot Wound. Spine.
Staphylorrhaphy.....	1				1	Cleft Palate.
Sutured Lacerated Palate.....	1				1	
Rectum.....	1				1	Imperforate Lumen Restorer.
Chin.....		1			1	Carcinoma.
Jaw. Plastic Operation.....	1				1	Gunshot Wound.
Colostomy. Lumbar.....		1			1	Epithelioma. Rectum.
Dilatation .....			1		1	Stricture. Eosophagus.
Skin Graft.....	1				1	Extensive Cicatrix.
Skin Graft of Ulcer.....	1				7	Suppurat. Mid. Ear Disease.
Mastoiditis.....		7				

## SUMMARY OF OBSTETRIC CASES IN 1900.

There were 248 cases of Obstetrics.

White .....	112	Multiparæ .....	117
Colored .....	136	Primiparæ .....	131

## PRESENTATIONS.

## POSITIONS.

Vertex.....	239	Left Occipito-Anterior.....	165
		Right Occipito-Anterior.....	28
		Right Occipito-Posterior.....	20
		Left Occipito-Posterior.....	10
		Uncertain.....	13
		Face.....	3

Breech .....	8
Shoulder .....	3
Foot.....	2
	13

## MANNER OF DELIVERY.

Naturally .....	229
By Forceps .....	12
By Podalic Version .....	7
	248

There were 4 cases of Twin Pregnancy.

## MORTALITY OF MOTHERS.

Of the 248 cases, 6 mothers died, making a mortality of 2 per cent.

## CAUSES OF DEATH.

Puerperal Eclampsia.....	2
Placenta Previa .....	2
Septicæmia .....	1
Exhaustion and Shock.....	1

The number of children born were 252.

Male.....	140	Living.....	229
Female.....	112	Still-born.....	23

Cases delivered in Ambulance before admission, 4.
